

## Contribute to our project

Open Source software is a reality today and an important choice. We believe in it and we have been working on this project for years, to give you high quality software.

### Financial Support

So, take this chance to participate. Financial support is important for every development effort on any business model, including Open Source. Your donation will be a financial support for us and an opportunity for you to join in our *Sponsor Program*.

What about a donation today?

### Operative Support

Money is not only the unique way to contribute to our project! We can extend the Sponsor Program to company or people who contribute by jobs like: documentation translation or IGSuite dictionary translation ([[how\\_translate\\_IGSuite\\_in\\_other\\_languages|read more](#)]). Contact us [labs@igsuite.org](mailto:labs@igsuite.org)
